Beware! Aliens are there!: There are strong indications of life beyond Earth. Mukesh Maheshwari

All along, the subject of aliens has been a very intriguing one with mysterious flying objects, amazing light patterns hovering in the sky, small green men and what not that were described by witnesses who were very excited to catch a glimpse of one. In our galaxy which comprises of 100 billion planets, according to the law of probability, the chances of life and inhabitable planets is overwhelmingly high. "I think we're going to have strong indications of life beyond Earth within a decade, and I think we're going to have definitive evidence within 20 to 30 years," says Ellen Stofan, NASA Chief Scientist. Here in this book you will get detail of valid incidents which are self-sufficient to prove existence of life beyond Earth. The day when you will be able to meet aliens is not much far. You will definitely agree after reading and watching the facts presented here.

Once you have read the book, I invite you to share your views on possible appearance of the aliens, their behavior, and how would you treat the one when you come across him? her? it? ??? It would help in the making of next book in the series....
