Positive Psychology in the Elementary School Classroom (Norton Books in Education) Patty O'Grady

Use the neuroscience of emotional learning to transform your teaching.

How can the latest breakthroughs in the neuroscience of emotional learning transform the classroom? How can teachers use the principles and practices of positive psychology to ensure optimal 21st-century learning experiences for all children? Patty O'Grady answers those questions. *Positive Psychology in the Elementary School Classroom* presents the basics of positive psychology to educators and provides interactive resources to enrich teachers' proficiency when using positive psychology in the classroom. O'Grady underlines the importance of teaching the whole child: encouraging social awareness and positive relationships, fostering self-motivation, and emphasizing social and emotional learning. Through the use of positive psychology in the classroom, children can learn to be more emotionally aware of their own and others' feelings, use their strengths to engage academically and socially, pursue meaningful lives, and accomplish their personal goals.

The book begins with Martin Seligman's positive psychology principles, and continues into an overview of affective learning, including its philosophical and psychological roots, from finding the "golden mean" of emotional regulation to finding a child's potencies and "golden self." O'Grady connects the core concepts of educational neuroscience to the principles of positive psychology, explaining how feelings permeate the brain, affecting children's thoughts and actions; how insular neurons make us feel empathy and help us learn by observation; and how the frontal cortex is the hall monitor of the brain. The book is full of practical examples and interactive resources that invite every educator to create a positive psychology classroom, where children can flourish and reach their full potential.

From reader reviews:

Ryan Mendoza:

What do you consider book? It is just for students because they are still students or this for all people in the world, exactly what the best subject for that? Merely you can be answered for that question above. Every person has diverse personality and hobby for each and every other. Don't to be compelled someone or something that they don't would like do that. You must know how great as well as important the book Positive Psychology in the Elementary School Classroom (Norton Books in Education). All type of book could you see on many options. You can look for the internet solutions or other social media.

Jessica Peacock:

Nowadays reading books be a little more than want or need but also work as a life style. This reading practice give you lot of advantages. The benefits you got of course the knowledge the particular information inside the book that improve your knowledge and information. The knowledge you get based on what kind of e-book you read, if you want have more knowledge just go with education books but if you want sense happy read one with theme for entertaining for example comic or novel. The particular Positive Psychology in the Elementary School Classroom (Norton Books in Education) is kind of publication which is giving the reader unforeseen experience.

Mary Fleeman:

This Positive Psychology in the Elementary School Classroom (Norton Books in Education) is great guide for you because the content and that is full of information for you who always deal with world and also have to make decision every minute. This specific book reveal it details accurately using great organize word or we can say no rambling sentences inside it. So if you are read this hurriedly you can have whole information in it. Doesn't mean it only will give you straight forward sentences but difficult core information with attractive delivering sentences. Having Positive Psychology in the Elementary School Classroom (Norton Books in Education) in your hand like keeping the world in your arm, information in it is not ridiculous 1. We can say that no guide that offer you world within ten or fifteen second right but this publication already do that. So , it is good reading book. Hey Mr. and Mrs. hectic do you still doubt that will?

Michele Sexton:

Many people spending their time period by playing outside having friends, fun activity using family or just watching TV all day every day. You can have new activity to enjoy your whole day by studying a book. Ugh, think reading a book really can hard because you have to use the book everywhere? It okay you can have the e-book, taking everywhere you want in your Smart phone. Like Positive Psychology in the Elementary School Classroom (Norton Books in Education) which is finding the e-book version. So , try out this book? Let's notice.
