What They Didn't Teach You In School About Money Omar Johnson

You went to school and you learned about various subjects. You learned about math, science, history, how to read and write along with other things. Wonderful! However, what the school system neglected to teach you about is the subject of MONEY. They never taught you what money truly represents; where it comes from, how to manage it, how to invest it and how to save it. Sure they may have reviewed some of the basics, but of course that wasn't enough and as a result you fail at the money game.

You don't know how to save or invest and you are over leveraged on your credit cards. In fact according to statistics the average U.S. household credit card debt stands at \$15,185 with 45 million Americans having outstanding balances of \$10,000 or more. Practically all of these people went through the school system yet they are financially in trouble and in debt because they were never truly taught about money in school. In his book entitled "What They Didn't Teach You in School About Money" Omar Johnson gives you the necessary information that will enable you to overcome your money ignorance. You will learn how to manage your money, how to invest and save it, how to make more of it and much much more.
