Formal Approaches to Agent-Based Systems: Third International Workshop, FAABS 2004, Greenbelt, MD, April 26-27, 2004, Revised Selected Papers (Lecture Notes in Computer Science)

The 3rd Workshop on Formal Approaches to Agent-Based Systems (FAABS-III) was held at the Greenbelt Marriott Hotel (near NASA Goddard Space Flight Center) in April 2004 in conjunction with the IEEE Computer Society. The first FAABS workshop was held in April 2000 and the second in October 2002. Interest in agent-based systems continues to grow and this is seen in the wide range of conferences and journals that are addressing the research in this area as well as the prototype and developmental systems that are coming into use. Our third workshop, FAABS-III, was held in April, 2004. This volume contains the revised papers and posters presented at that workshop. The Organizing Committee was fortunate in having significant support in the planning and organization of these events, and were privileged to have world-renowned keynote speakers Prof. J Moore (FAABS-I), Prof. Sir Roger Penrose (FAABS-II), and Prof. John McCarthy (FAABS-III), who spoke on the topic of self-aware computing systems, auguring perhaps a greater interest in autonomic computing as part of future FAABS events. We are grateful to all who attended the workshop, presented papers or posters, and participated in panel sessions and both formal and informal discussions to make the workshop a great success. Our thanks go to the NASA Goddard Space Flight Center, Codes 588 and 581 (Software Engineering Laboratory) for their financial support and to the IEEE Computer Society (Technical Committee on Complexity in Computing) for their sponsorship and organizational assistance.

From reader reviews:

Dorothy Walker:

A lot of people always spent their own free time to vacation or perhaps go to the outside with them household or their friend. Are you aware? Many a lot of people spent they will free time just watching TV, or playing video games all day long. If you need to try to find a new activity this is look different you can read a new book. It is really fun for you. If you enjoy the book that you simply read you can spent the whole day to reading a reserve. The book Formal Approaches to Agent-Based Systems: Third International Workshop, FAABS 2004, Greenbelt, MD, April 26-27, 2004, Revised Selected Papers (Lecture Notes in Computer Science) it is very good to read. There are a lot of folks that recommended this book. We were holding enjoying reading this book. In the event you did not have enough space to develop this book you can buy the actual e-book. You can m0ore easily to read this book from a smart phone. The price is not very costly but this book has high quality.

David McMillian:

Does one one of the book lovers? If so, do you ever feeling doubt when you are in the book store? Aim to pick one book that you find out the inside because don't judge book by its cover may doesn't work here is difficult job because you are scared that the inside maybe not while fantastic as in the outside appearance likes. Maybe you answer may be Formal Approaches to Agent-Based Systems: Third International Workshop, FAABS 2004, Greenbelt, MD, April 26-27, 2004, Revised Selected Papers (Lecture Notes in Computer Science) why because the amazing cover that make you consider in regards to the content will not disappooint an individual. The inside or content is usually fantastic as the outside or perhaps cover. Your reading sixth sense will directly show you to pick up this book.

Sanjuana Day:

As a pupil exactly feel bored to be able to reading. If their teacher asked them to go to the library or to make summary for some e-book, they are complained. Just minor students that has reading's internal or real their interest. They just do what the instructor want, like asked to the library. They go to right now there but nothing reading significantly. Any students feel that studying is not important, boring and also can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Formal Approaches to Agent-Based Systems: Third International Workshop, FAABS 2004, Greenbelt, MD, April 26-27, 2004, Revised Selected Papers (Lecture Notes in Computer Science) can make you sense more interested to read.

John Merritt:

Some individuals said that they feel weary when they reading a publication. They are directly felt this when

they get a half areas of the book. You can choose the book Formal Approaches to Agent-Based Systems: Third International Workshop, FAABS 2004, Greenbelt, MD, April 26-27, 2004, Revised Selected Papers (Lecture Notes in Computer Science) to make your own reading is interesting. Your skill of reading expertise is developing when you like reading. Try to choose basic book to make you enjoy to read it and mingle the feeling about book and studying especially. It is to be very first opinion for you to like to start a book and examine it. Beside that the book Formal Approaches to Agent-Based Systems: Third International Workshop, FAABS 2004, Greenbelt, MD, April 26-27, 2004, Revised Selected Papers (Lecture Notes in Computer Science) can to be your brand-new friend when you're feel alone and confuse with what must you're doing of their time.
