A half-billion would die before it was over....

The day the Iranians set off a forty megaton nuke marked the beginning of a new world order. The Russians covertly assist the Admiral who sets a plan in motion disrupting the world's oil supply that will ultimately alter the course of history.

The Western World is panic stricken with the thought that Iran threatens first Israel, then the entire world with nuclear destruction. The Iranian president continues his ranting at the UN that Allah has willed the destruction of the evil Zionists.

Old hostilities are tossed aside and new alliances are formed in smoke filled backrooms of the UN, the Kremlin and the White House. Third world nations, particularly Somalia, suddenly become strategically important and the super powers struggle to sort it all out and battle for position. The stakes could not be higher.

Houston Robinson, better known as Watchdog, an unofficial Cabinet advisor to the president, sets out to discover the truth to all the crises that suddenly appear out of nowhere. Tourists are mysteriously kidnapped off the streets of Europe and surface in the largest supertanker hijacking in history. The USS George H.W. Bush is a target of an Iranian airbus attack in the Indian Ocean. Pandemonium in the oil futures markets sends oil prices to dizzying heights in a Venezuela Chinese oil coup. The entire planet it seems is being turned upside down when the Admiral seizes the world's oil supply. Economies crumble at a dizzying pace while others flourish depending upon their role in the new order.

Watchdog finds himself in backroom politics with the Amir Harazi the Prime Minister of Israel who has plans of his own to bring a stop to the Iranian missiles that threaten to destroy his country in another Holocaust.

You will be taken into the cockpits of Super Hornets and Lightning II's with the men and women who carry out the orders of world leaders. You'll witness the agonizing decisions of generals and commanders who place their careers on the line carrying out the orders of presidents and prime ministers. Inevitably Watchdog runs head to head with the Admiral. Millions of lives hang in the balance as the world threatens to self destruct from greed and power.

This story is taken from tomorrow's headlines. It's a prophetic tale that will scare you with its chilling back room deals and double-crosses. Who is friend? Who is foe?

It's a good thing Watchdog is here to figure it all out and see that the Admiral's plan to hijack the world's oil is waylaid. Should he do it? Can he do it? Let's hope so.
