Beauvoir and Her Sisters: The Politics of Women's Bodies in France Sandra Reineke

Beauvoir and Her Sisters investigates how women's experiences, as represented in print culture, led to a political identity of an "imagined sisterhood" through which political activism developed and thrived in postwar France. Through the lens of women's political and popular writings, Sandra Reineke presents a unique interpretation of feminist and intellectual discourse on citizenship, identity, and reproductive rights. Drawing on feminist writings by Simone de Beauvoir, feminist reviews from the women's liberation movement, and cultural reproductions from French women's fashion and beauty magazines, Reineke illustrates how print media created new spaces for political and social ideas. This sustained study extends from 1944, when women received the right to vote in France, to 1993, when the French government outlawed anti-abortion activities. Touching on the relationship between consumer culture and feminist practice, Reineke's analysis of a selection of women's writings underlines how these texts challenged traditional gender models and ideals.
