Robert Moss

Moscow Rules Robert Moss

Great book, it is not often that an author can come up with such a comprehensive book as this on his first try. This had it all, a great story, good characters, wonderful action and a quick pace. This is an exciting book. It really made me happy reading the book; it was like a great game of treasure hunt where you find everything. Each time I was ready for a plot twist, action of drama it was there. The characters just explode in your memory - you do not get them out of your head. Overall great effort. This is an excellent novel set in the late stage of the Cold War. It essentially paints a very plausible scenario (that turned out wrong, as it happens) of how the old USSR might have changed governmental systems. The novel is centered around a Soviet GRU agent stationed in the United States ("Sasha"). Sasha has an agenda, even as he becomes a competent agent working for the Soviet regime as an intelligence officer in the United States. The novel crackles with authenticity. Moss plainly did his homework, and draws heavily on other works including the well-known "Inside the GRU" by Victor Suvorov. The writing is excellent, the storyline moves briskly, and the key characters have depth and plausibility. This is one of my favorite spy novels and remains so, even if it is the case that the old USSR imploded under a scenario somewhat different than that set forth here. Moss's speculation along these lines was intelligent and insightful, and better than most. Overall, a great read and an intelligent look at international espionage in the context of the bad old
