## **The Theory of the Sublime from Longinus to Kant** Robert Doran

In this book, Robert Doran offers the first in-depth treatment of the major theories of the sublime, from the ancient Greek treatise *On the Sublime* (attributed to 'Longinus') and its reception in early modern literary theory to the philosophical accounts of Burke and Kant. Doran explains how and why the sublime became a key concept of modern thought and shows how the various theories of sublimity are united by a common structure - the paradoxical experience of being at once overwhelmed and exalted - and a common concern: the preservation of a notion of transcendence in the face of the secularization of modern culture. Combining intellectual history with literary theory and philosophical analysis, his book provides a new, searching and multilayered account of a concept that continues to stimulate thought about our responses to art, nature and human events.
