The SAGE Handbook of Public Administration

The SAGE Handbook of Public Administration

The original Handbook of Public Administration was a landmark publication, the first to provide a comprehensive and authoritative survey of the discipline. The eagerly-awaited new edition of this seminal international handbook continues to provide a complete review and guide to past and present knowledge in this essential field of inquiry. Assembling an outstanding team of scholars from around the world, the **Second Edition** explores the current state-of-the-art in academic thinking and the current structures and processes for the administration of public policy.

The **Second Edition** has been fully revised and updated, with new chapters that reflect emerging issues and changes within the public sector. A dominant theme throughout the handbook is a critical reflection on the utility of scholarly theory and the extent to which government practices inform the development of this theory.
