Atlantis, Alien Visitation and Genetic Manipulation Michael Tsarion

In the tradition of William Bramley, Laurence Gardener and Erich von Daniken, Michael Tsarion considers the consequences to civilization of extraterrestrial involvement and seeks to clarify many of the quandaries that other "visitation" experts have overlooked. His book clarifies the disinformation about Atlantis and the lost continents of prehistory. It concentrates on the orchestrated chaos of modern times and reveals how the political and military machinations of the present have their roots in the ancient past.
