Formulas for stress and strain Warren C. Roark Raymond J. Young

Roark's Formulas for Stress and Strain was first published in 1938. The subjects covered in the book include: joints, bearing and shear stress, experimental stress analysis, and stress concentrations, as well as material behavior coverage and stress and strain measurement. Also included are expanded tables and cases; improved notations and figures within the tables; consistent table and equation numbering and verification of correction factors. The book organizes the formulas into tables in a hierarchical format - chapter, table, case, subcase-providing diagrams for each case and subcase.
